

PLEDGES COMING IN TO TOBACCO MARKETING CONTRACTS

(Continued From Page 1)

ness in their territory, and that a special drive would be made the first of the week for the purpose of closing up their contracts. Some precincts have signed up as much as ninety-five per cent. of the tobacco grown within their limits, and it is expected that the full quota will be secured this week. It is now thought that Bourbon county will sign up at least ninety per cent. of the tobacco acreage by the time the campaign closes.

At the close of the meeting a large number of growers and farmers came forward and signed the pledge, among them being several who had hitherto opposed the plan. The following is the list of signers:

SWIFT & Co.'S WEEKLY PRODUCE MARKET REVIEW

Lower prices now prevailing on poultry are due to heavier movement. Indications are that we will see continued heavy shipments to market with still lower prices, as prices on poultry for some time have been out of line with prices on other kinds of live stock.

Hens are now in the molting period which is having some effect on the general quality, and is responsible for the lower dressed markets.

Production of cream is showing some increase, due to pasture conditions, and markets have declined in line with general markets on other commodities.

Egg production is now light, and the trade generally is turning to the use of storage eggs, as the amount of fresh being marketed is not large enough to care for the consuming demand.

CENSUS PRESENTS INTERESTING TOBACCO FIGURES

Cigarettes numbering 61,859,900,000 were manufactured in the United States last year, the census bureau's annual tobacco report recently issued shows. Of that number 15,834,000,000 were exported, leaving about 46,000,000,000 factory made made cigarettes for consumption in the United States. Cigar manufacture including chewing and smoking and snuff, totaled 413,891,000 pounds.

CORN

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the caluses, without soreness or irritation.

CONFEDERATE HOME IS TARGET OF INCENDIARY

An incendiary made an unsuccessful attempt to burn the Old Confederates' Home at Pewee Valley, where two factions have been at odds for several months.

An investigation by Sheriff M. O. Cassidy and Deputy Sheriff R. S. Thompson revealed that the hall, in which the flames would have spread ere long, had been set afire. This building is located only a few feet from the main buildings, to which the flames would have spread had they gained headway. A negro boy discovered the blaze, which was easily extinguished.

Charges and counter charges have been made by the opposing factions at the Home, and the possibility of the fire having been due to this situation will be investigated.

HARRELL'S FLYING CIRCUS AT BLUE GRASS FAIR

Harrell's Flying Circus gives about the most hazardous performance to be seen in the air. They are engaged for Tuesday and Wednesday at the Blue Grass Fair, Lexington. Their stunts include a parachute leap from 2,000 feet; wing walking, changing from plane to plane, Chief Burns, strapped to wing while plane loops the loop and, in short, every stunt known to aviation. The night flights are spectacular in the extreme.

Mrs. Catherine M. Smith, of Bay City, Mich., celebrated her ninetieth birthday by doing the family washing.
